

The Hand truck

The smooth running hand truck by **VARIOfit**

Safety Handles:

- These safety handles make handling of the Variofit hand truck more comfortable and a special mixture of material guarantees a long durability. A flexible protection bar secures your hands from damaging.

Plastic Skids:

- Extra long skids simplify handling and avoid inconvenient catching. The skids are made of high quality plastic and are clipped strongly on the tubes.

Pneumatic tyres with groove profile

- moves 30% easier
- groove profile absorbs less dirt
- low noise moving profile

In use:

- Easy transport of heavy duty on stairs thanks to an optimal construction which avoids that the wheels hit the ground.

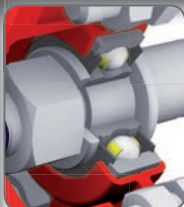

Support tube:

- Two additional horizontal support tubes stabilize the hand truck. Fitted with a break in the middle of the tubes also round items can be transported optimal with the hand truck.

Wheel cap / steel rim:

- the high quality steel rim with the central lock nut is well protected by the Variofit plastic cap.

Precision ball bearing:

- sealed and maintenance free precision ball bearing. Guaranteed smooth running with heavy duty also on inclined and rough surfaces.

Wide loading surface:

- As the protection plates close flush to the tubes an optimal use of the shovel is assured.

Best quality – fair price. VARIOfit

In respect of quality we make no compromises. Safe your Variofit hand truck with better handles, improved skid protection and smooth running wheels. Improved quality at fair prices – double your profit with Variofit

Variofit is the trademark which stands for exceptionally flexible transport devices. Besides a large variety of product types the Variofit products offer nearly unlimited possibilities of customising up to the customers requirements and always at fair prices.
